

**We are Nascha.**  
**Assisting people to live a lifestyle of their choice.**

## About Us

Nascha has been delivering quality care and support service across Western Australia for over three decades. What began in 1991 as a small group of six families with a desire to create a better future for their children has grown to be one of WA's most trusted, compassionate, and family focused disability support providers.

We believe that every person is unique, and that support should begin with the individual not the disability. Our team takes the time to build meaningful and trusting relationships with the people we support as well as with their families, allied health professionals, and with their broader support networks. This approach gives us the best opportunity to get things right and provide support that truly reflects what people want and need.

From BBQ's and birthdays, to fitness and fancy dancing, Nascha will be by your side encouraging you to chase your dreams and supporting you to live life on your terms.

Reliability

## Our Services

### Social and leisure support

Connecting you with your community, hobbies, events, and friendships.

### Assistance with individual living

Helping you manage daily tasks, build confidence, and live on your terms.

### Assistance with shared living

Encouraging independence while offering reliable support in a shared living environment.

### Assistance with host family and other living options

Providing a safe and welcoming home through trusted host families.

*Assisting people to live a lifestyle of their choice*

# How does it work?

At Nascha, we make the process clear and stress-free. From your first enquiry to setting up your supports, we guide you step by step, explain your options, and make sure you stay in control of every decision. You're the expert in your own life!

Call us to set up a meeting

We meet with family so we can get to know you

We will come back to you with a plan/proposal for your needs

Action!

Thank you for the creative way in finding the right living arrangement for my sister. She is now in a place where I know she is safe and well looked after.

– Helen B.

What I like about Nascha, is the feeling that I belong to a big family.

– Tony A.
